

Our cash pay model allows for a patient-centric approach to dermatological care enhancing the overall experience for our patients. We ensure that every individual feels heard, supported, and empowered throughout their journey with us. By eliminating the complexities that come with insurance-based systems, we provide a seamless and personalized experience, allowing our patients to focus solely on their health and well-being.

Examinations

Full Body Skin Exam \$250

We utilize dermoscopy to unveil hidden skin abnormalities, providing a level of clarity and precision that traditional skin examinations cannot match. With dermoscopy, we analyze intricate details, spot the slightest changes, and make informed decisions giving you peace of mind and confidence in your skin health. This service also includes the destruction of up to three benign or premalignant skin lesions if appropriate.

Spot Check \$150

We will thoroughly examine a specific area of concern - for example, a spot that is changing, bleeding, causing pain, or itching regularly. If a full skin check isn't necessary, we can easily evaluate your specific concern during this visit.

Initial Skin Concern Evaluation \$250

If you have a specific concern, such as a rash, hair loss, acne, rosacea, eczema, or psoriasis, you can trust us to devote ample time to evaluating the potential causes while we develop a personalized treatment plan to effectively address your unique skin issue.

Follow-up \$150+

Lesion Removal, Destruction or Excision

Lesion removal can be done with freezing, cautery, shave removal, or excision. Whether you have moles, warts, skin tags, molluscum, actinic keratoses, or certain skin cancers, we will choose the right procedure for you.*

Lesion destruction \$40/5 lesions

Malignancy destruction \$50+

Excision \$varies

*Lab Fees Not Included

Cyst Removal \$200+

During a cyst removal, we carefully mark and thoroughly numb the area, ensuring your utmost comfort throughout the procedure. We will then remove the cyst, skillfully attending to every detail.

Incision and Drainage \$60+

I&D is a relatively straightforward procedure that targets abscesses. A small incision is made allowing drainage while helping reduce pain and inflammation. It can be performed under local anesthesia and often results in quick resolution of symptoms, allowing you to experience significant relief.

Skin Lesion Treatments

Skin Biopsy

A skin biopsy is a commonly performed medical procedure where a sample of skin tissue is obtained for further analysis. During this procedure, we carefully remove a sample of the skin using a special tool or a scalpel. This sample is then sent to a laboratory for examination*.

Biopsy - Suture or Gelfoam required (removal incl): \$90

Biopsy - No Suture required: \$30

*Lab Fees Not Included

Additional Services

Steroid Injection \$30+

Steroid injections involve administering a corticosteroid by injecting it directly to the skin to treat a variety of skin conditions. We may recommend a steroid injection to treat conditions ranging from common problems such as acne cysts, psoriasis, and alopecia areata to rare conditions such as granuloma annulare.

Medication Prior Authorization

By diligently submitting the necessary information on your behalf, we ensure that your medications are approved by your health insurance, allowing you to focus on your well-being without the added burden of dealing with insurance paperwork.

Most Medications: \$50

Biologics: \$75

dermatology differently

We combine expert knowledge in dermatology and skincare with lifestyle modification strategies to help you achieve skin wellness.

Injectables

Botox or Dysport \$17/unit

Temporarily improves the appearance of moderate to severe frown lines, crows feet, and forehead lines. Price varies when combined with additional procedures.

Liquid Gold with Botox + 2 \$500

Using a micro injection device, this treatment allows for the precise delivery of micro doses of Botox at a consistent depth. This innovative technique is combined with 2 personalized boosters, tailored to address your specific skin concerns promoting a more vibrant, revitalized complexion.

PRF - Facial Rejuvenation \$varies

PRF Facial Rejuvenation is an innovative and highly sought-after treatment that utilizes the power of Platelet-Rich Fibrin to enhance skin health and promote a youthful appearance. This revolutionary procedure involves the extraction and concentration of the patient's own blood platelets, which are then reintroduced into specific areas of the face to stimulate collagen production, improve skin texture, and reduce the visible signs of aging.

Hair Restoration \$varies

We offer individuals struggling with hair loss a range of options to consider including injectable Minoxidil, Dutasteride, and Platelet-rich Fibrin (PRF) therapy. Minoxidil, works by stimulating hair growth and prolonging the growth phase of the hair follicles. Dutasteride helps prevent testosterone conversion into dihydrotestosterone (DHT), which is known to cause hair loss. Platelet-rich Fibrin (PRF) uses cell growth factors to revive inactive hair follicles, promoting new and stronger hair growth. Combining these treatments can provide patients with a comprehensive approach to hair restoration, tailored to their specific needs.

Microneedling \$400+

Microneedling introduces tiny and precise micro-injuries into the skin to stimulate internal healing mechanisms that effectively minimize the appearance of acne scars, enlarged pores, fine lines and wrinkles, uneven skin tone and stretch marks to restore skin.

Laser Skin Treatments

AdvaTx Laser

Our ADVA Laser Treatment is a non-invasive, state-of-the-art laser technology using two different wavelengths to target a wide range of skin concerns in a single treatment - including acne, acne scars, rosacea, psoriasis, pigmentation issues, wrinkles, enlarged pore size and uneven skin texture. If you desire a dramatic improvement in your skin's appearance, we encourage you to explore the transformative benefits of our ADVA Laser Treatment.

Single Treatment	\$800+
Package of 3	\$2160+

AdvaTx Vascular Treatment

We utilize laser energy to target and diminish vascular abnormalities such as broken blood vessels, telangiectasias, cherry angiomas, bruises, spider veins, vascular birthmarks, and venous lakes, restoring your skin to a more youthful appearance.

Single Treatment	\$300+
Custom Packages Available	

Peels

Acne Peel \$150 ea/Pkg of 6 \$750

By utilizing the power of salicylic acid, this peel works to exfoliate the skin, unclog pores, and reduce inflammation while targeting acne-causing bacteria, resulting in a noticeable improvement in the skin's overall appearance and texture. With regular use, this peel can effectively minimize acne breakouts and promote a healthier, clearer complexion.

Customized Peel

Our Customized Peel is completely tailored to meet your unique skin goals. We will expertly curate a special blend of acids that effectively targets your specific skin concerns. We finish with a luxurious and deeply hydrating serum, to hydrate and moisturize.

Superficial Peel	\$400
Medium Peel	\$800
Medium to Focal Deep	\$1200
Periocular Peel	\$400

PRX Treatment

PRX Treatment utilizes a potent combination of trichloroacetic acid, hydrogen peroxide, and kojic acid. This unique blend reduces unwanted pigment in the epidermis but also penetrates to the dermis where it stimulates collagen production while avoiding peeling. PRX has proven revolutionary in correcting a wide range of issues, including scars and sagging skin. Achieving optimal results may require 4-6 treatments.

Small Area (lip, eyelids or scar)	\$200
Face	\$400 / Package of 6 \$2000
Face and Declotte	\$600 / Package of 6 \$2500
